EDUCATION

Columbia University — **New York, U.S.**
Master of Science in Business Analytics (GPA: 3.92/4.0) — **Aug 2025 – Expected Dec 2026**
Courses: Business Analytics, Marketing Analytics, Data Analytics, Corporate Finance, Accounting, Capital Market

New York University — **New York, U.S.**
Bachelor of Arts in Economics and Mathematics (GPA: 3.65/4.0) — **Aug 2021 – May 2025**
Courses: Mathematics, Economics, Statistics, Econometrics, Programming and Data Science, Finance

INTERNSHIP EXPERIENCE

Real Value Capital — **New York, U.S.**
Investment Banking Intern — **Dec 2025 – Feb 2026**

- Supported a CAD 3.5mm private placement (CAD 12mm pre-money valuation) for a Canadian AI/IoT smart-home risk-prevention company; analyzed its AI water-shutoff, AI fire-detection and smart-security product lines and "Risk Prevention as a Service" subscription model to frame key investment highlights
- Analyzed Moen's acquisition of Flo Technologies as a smart-home precedent transaction, mapping Flo's $39.3mm funding history from seed through Series B to validate investor appetite and strategic-exit pathways in the sector
- Screened 9 potential investors across IoT, PropTech and InsurTech VCs and insurer-backed strategic investors (e.g., USAA, State Farm), assessing sector focus, stage and strategic fit; drafted the investor outreach email template
- Authored an AI-sector IPO trend report on listing windows, valuation drivers and regulation for AI chip and enterprise AI software companies; completed 5 additional IPO studies incl. Zeekr (smart EV) and screened 11 European and U.S. healthcare PE/VC funds for a biotech client

Tianjin Leasing Assets Trading Center Co., Ltd. — **Tianjin, China**
Risk Management Intern — **Jun 2025 – Sep 2025**

- Assisted in due diligence for prospective Asset-Backed Securities (ABS) transactions by collecting and reviewing lease agreements, payment histories and lessee credit files
- Built and updated cash-flow models for a RMB 1 bn commercial-vehicle lease book, stress-testing receivables and calculating key metrics to flag delinquency risk and trigger early-stage collections
- Automated repayment monitoring and designed dashboards that visualized monthly cash flows for the securitization pipeline
- Researched credit-enhancement structures, benchmarked reserve accounts, over-collateralization and excess-spread levels against 15 recent auto-lease ABS deals and delivered risk-management recommendations to the deal team

King & Wood Mallesons — **New York, U.S.**
Business Development Intern — **Jul 2024 – Aug 2024**

- Drafted RFP responses, capability statements and pitch decks for cross-border M&A and Committee on Foreign Investment in the United States (CFIUS) matters, integrating league-table rankings and recent deal highlights to support BD initiatives
- Consolidated key market news into daily sector news briefs and weekly sector digests on corporate litigation trends, feeding directly into client alerts and proposal content
- Built a standardized Business Development (BD) template that combines SWOT analysis, competitor benchmarking and client-mapping; adopted by the team to prioritize high-value potential clients

RESEARCH EXPERIENCE

Causal Inference in Econometrics, Yale University — **New Haven, U.S.**
Team Leader — **May 2024 – Jul 2024**

- Evaluated the 2011 Wage Theft Prevention Act's impact on NYS part-time labor supply, constructing a Difference-in-Differences model in R with education, experience, marital status, and gender controls
- Detected a statistically significant drop in affected workers' hours in New York State compared to those in Connecticut, Ohio, and Pennsylvania, attributing the decline to the Act via negative interaction-term coefficient

Labor Economics Research, New York University — **New York, U.S.**
Team Leader — **Feb 2024 – May 2024**

- Applied Difference-in-Differences framework to analyze Current Population Survey micro-data and visualize the negative impact of online-learning platforms on traditional-education employment
